

CONCARGO RAIL BULK MATERIALS HANDLING SOLUTIONS

Synergy at your service®

Concarga Rail is the innovation of David Kruyer, owner and founder of **Concarga Global Logistics (Pty) Ltd** established in 1987. **Concarga Rail** is committed to supplying innovative logistics and rail solutions to the mining industry throughout South Africa & in all SADC countries Sub-Saharan Africa.

Concarga's people have a wealth of knowledge from decades of experience in the transport and logistics industry. **Concarga** recognises the importance of 'best practice' and therefore continues to invest heavily in training our people to further enhance their skills. At **Concarga** we understand that to be successful we have to offer a true alternative that is both competitive and innovative. This is why we have invested significantly in technology which enables optimum train handling and management of all cargo.

Special Products Handling

Products that require specialised handling are not uncommon. These opportunities are tackled with gusto and there are many examples of satisfied cargo owners. Special services include the following:-

- Storage and materials handling of weather sensitive cargoes.
- Inspection, verification, photographing and monitoring of cargo.
- Loading or distribution of containers, bulk bags & machinery.
- Warehousing & Storage of Bulk Bags & All types of dry Cargo.

Core Functions

- **Concarga Bulk transport** all Mined commodities over long and short distances throughout South Africa from East to West and North to South.
- **Concarga Tipper Transport** focus on efficiency, productivity, real-time management of running costs and high quality maintenance which ensures a minimum number of vehicles required per contract to meet our respective clients' needs. This translates into lower capital investment, which in turn results in reduced transport costs for both parties.
- **Concarga Mining Logistics Cross/Over-border transport** of bulk product by Tri-Axle and Superlink flatbed trucks into all SADC countries in Sub-Saharan Africa.
- **Concarga Distribution transport** palletized goods, drums, Mining equipment, machinery and Abnormal Out-of-Gauge Heavy cargo throughout Africa.
- **Concarga Material Handling** on mines, i.e. Telehandlers/Forklifts & transport of Bulk-Bags and distribution of bagged product from mine to harbour for packing into containers for Export.
- **Concarga Rail Warehousing and Storage** at TFR depots countrywide as well as Contract Warehousing and Public Warehousing short and long term contracts.
- **Concarga Oceanfreight/Airfreight** for export cargo, transport, storage and handling on railway sidings throughout TFR network in South Africa.
